

TECHNICAL DATA SHEET

Astringent solution

COMPOSITION

- Octadecahydrated aluminium sulphate, PH.Eur. (25%)
- Distilled Water (75%)
- Without epinephrine: no risk of circulatory disorders

PRODUCT INFORMATION

- Astringent and haemostatic solution used for treatment of gingival retraction
- Used with our knitted or braided retraction cords
- For dental use only
- Cannot be used in cases of severe ulcerous gingivitis
- Precaution: slightly acidic salt, rinse thoroughly in case of contact with eyes
- Less sensitive to hydrolysis than Aluminium Chloride (more stable)
- Colourless, non staining
- Shelf life: 3 years from production date
- Class I medical device, single use product
- General tolerance: +/- 10 %

PACKAGING

- Glass bottles in order to keep the product even more stable
- Other packaging and customised packaging on request
- Bottle gross weight: +/- 42 g
- Case sizes: 30 x 30 x 63 mm
- Export boxe sizes: 225 x 225 x 80 mm
- 24 case in a box 60 x 40 x 60 cm
- Should be stored in a clean and dry place, out of direct sunlight and at room temperature
